

## Interim Financial Briefing for the Fiscal Year Ending March 31, 2023

#### **TOKYO ELECTRON DEVICE**

October 31, 2022

Agenda

### Financial Report

Corporate Director / Senior Executive Vice President Yukio Saeki

## Forecast for the Fiscal Year Ending March 31, 2023 President & Representative Director Atsushi Tokushige

## Corporate Director / Senior Executive Vice President Yukio Saeki

Year-on-Year Comparison: Higher sales and income

Net sales: 35.0% increase Ordinary income: 109.9% increase Net income attributable to owners of parent: 35.5% increase

CN Business: While IT investment has been strong, longer product delivery times and the weak yen have had a negative impact.

- EC Business: Strong demand for semiconductor products as well as the weak yen led to positive results.
- PB Business: Design and manufacturing was strong.

#### Summary of Financial Results: Comparison with **Prior Year** (million yen)

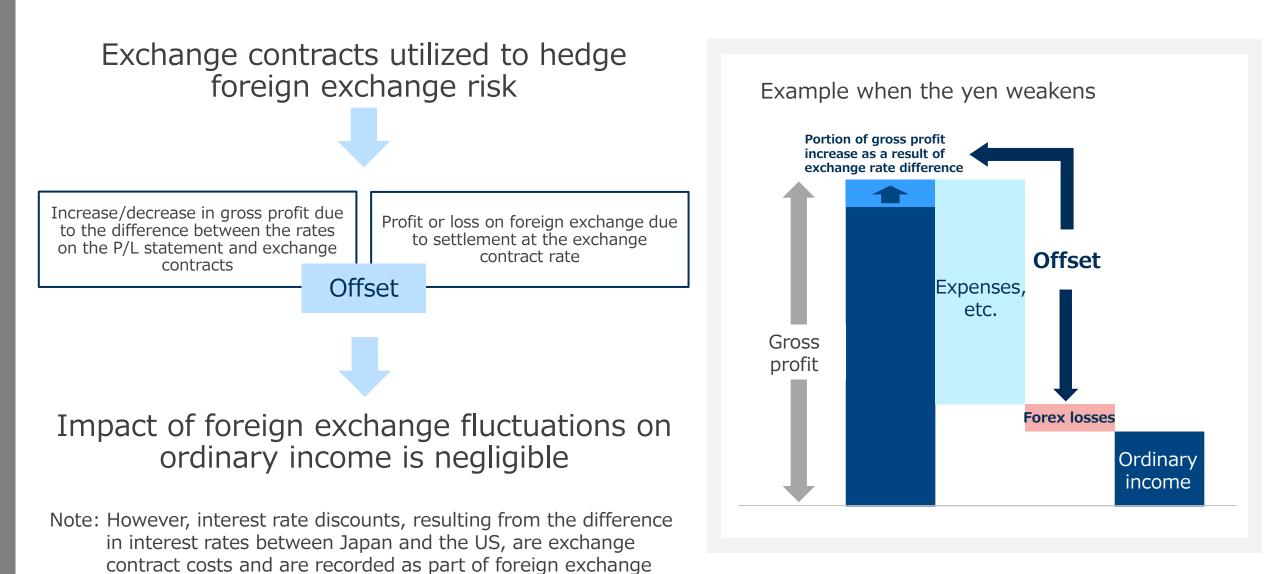

|   | FY2022 Interim | FY2023 Interim | Change      | FY2023 Forecast<br>Revised Sep. 29 |
|---|----------------|----------------|-------------|------------------------------------|
| Net sales   | 82,780         | 111,769        | 28,989      | 110,000                            |
| Cost of sales                                     | 71,517         | 95,706         | 24,189      |                                    |
| Gross profit                                      | 11,262         | 16,062         | 4,800       |                                    |
| Selling, general & administrative expenses        | 8,505          | 9,489          | 984         |                                    |
| Operating income                                  | 2,757          | 6,573          | 3,816       |                                    |

## Foreign Exchange Losses

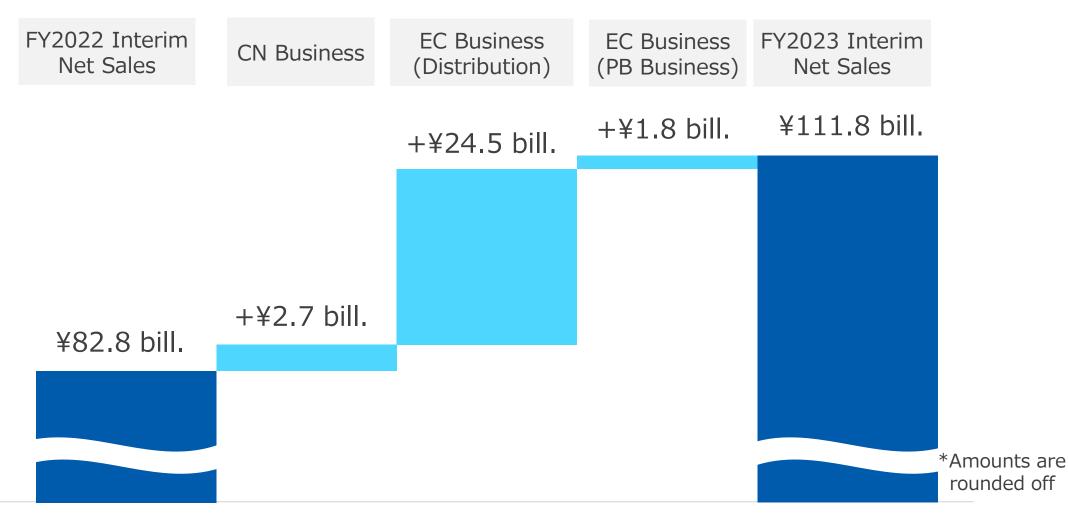

losses.

## Summary of Financial Results: Change in Net Sales

In the segment categories, the PB Business is included in the EC Business.

PB is an abbreviation of "Private Brand;" the title was changed from In-House Brand Business, which was used in the past. The PB Business includes Tokyo Electron Device Nagasaki Limited and FAST CORPORATION.

## Sales and Income by Segment

- CN Business: Despite longer delivery times for IT equipment, net sales increased for both product sales and services. Income decreased due to the weak yen and increased SG&A expenses resulting from an increase in employees.
- EC Business: Strong demand for semiconductors despite the continuing supply problems. Net sales and income both increased in part due to the impact of the weak yen.

(million yen)

## Segment Information: CN Business (1/2)

#### Sales Component Ratios by Product Category

- Sales of network-related products to system integrators and enterprises were strong
- Sales of security-related products grew for cloud security and endpoint security
- Sales of maintenance and monitoring services were strong

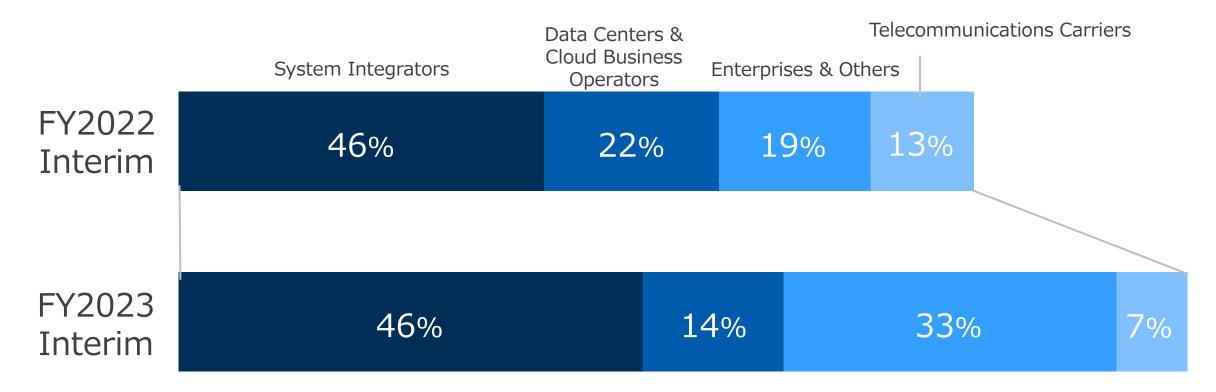

## Segment Information: CN Business (2/2)

#### Sales Component Ratios by Field

- Sales to system integrators were strong in all categories
- Sales of network- and security-related products to enterprises were strong
- Sales to data centers decreased due to the impact of longer delivery times

## Segment Information: EC Business (1/2)

#### Sales Component Ratios by Product Category

- Analog ICs: Sales increased for industrial equipment
- Logic ICs: Sales increased for industrial equipment and communication base stations
- Sales of boards, electronic components, etc., Boards, Electronic to communication base stations increased significantly Components, etc. Memory ICs Software & services Analog ICs Micro Processors PB Logic ICs FY2022 15% 5 6 22% 11 37% 4 Interim % % % FY2023 14% 35% 19% 18% 4 4 6 Interim % % %

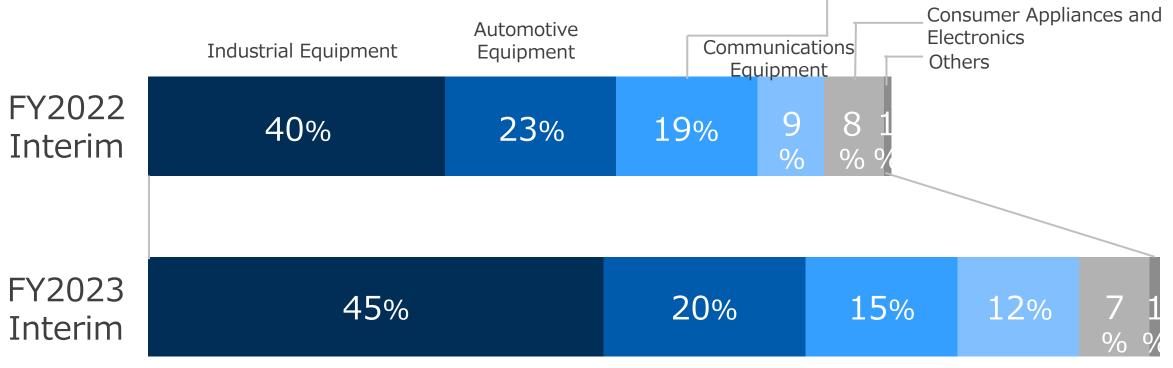

## Segment Information: EC Business (2/2)

Computers and Peripherals

#### Sales Component Ratios by Application

- Sales increased across all product categories
- For industrial equipment, analog ICs, processors, and design and manufacturing increased
- For communications equipment, sales of electronic components and logic ICs to communications base stations increased

\*The categorization for Sales Component Ratios by Application for the EC Business has been changed.

### Consolidated Overseas Subsidiaries: Net Sales— EC Business

- Strong sales for industrial equipment
- Sales for computers and peripherals were weak
- Impacted by the weak yen

|  | FY2022 Interim | FY2023 Interim | Change | Rate of<br>Change |
|--|----------------|----------------|--------|-------------------|
| Consolidated overseas<br>subsidiaries net sales<br>(million yen) | 20,931         | 25,985         | 5,053  | 24.1%             |

| Net sales ratio       | 5.9%           | 6.1%           |        |                   |

\*The net sales ratio is the ratio to EC Business net sales.

### **Balance Sheet**

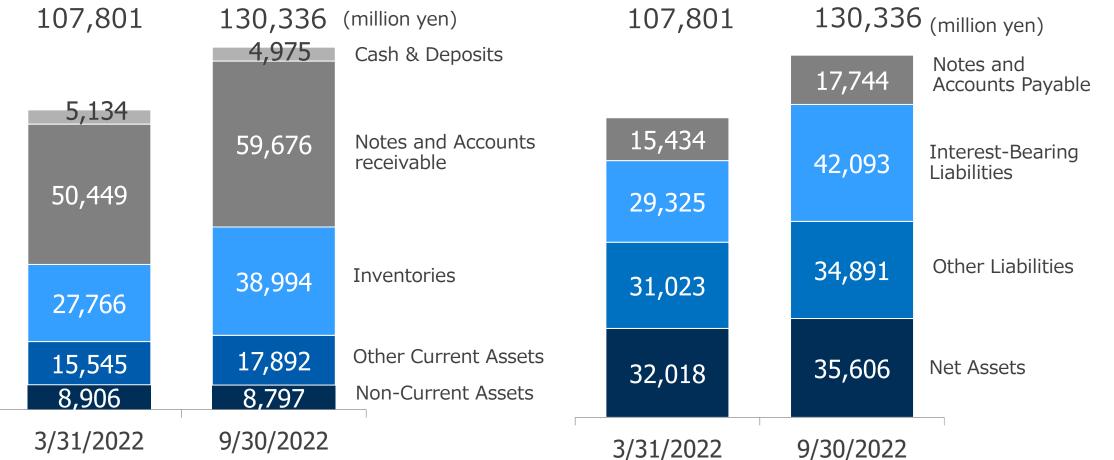

#### Assets

- Notes and accounts receivable and inventories increased due to strong orders and sales
- Prepaid expenses increased due to increased maintenance and subscription business

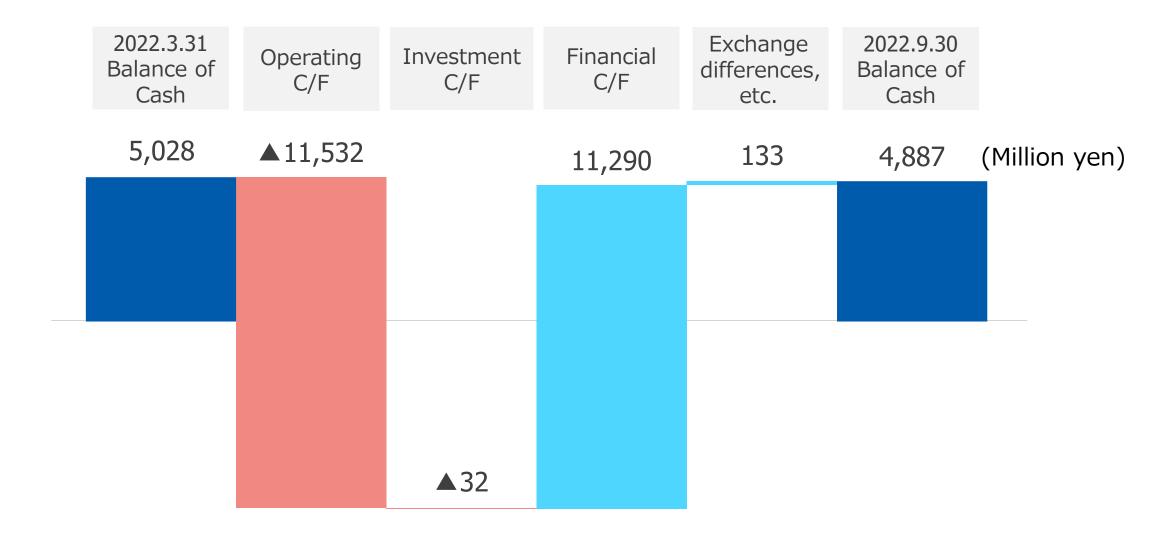

#### Liabilities & Net Assets

- Notes and accounts payable increased in conjunction with increased orders placed
- Interest-bearing liabilities increased due to demand for working capital

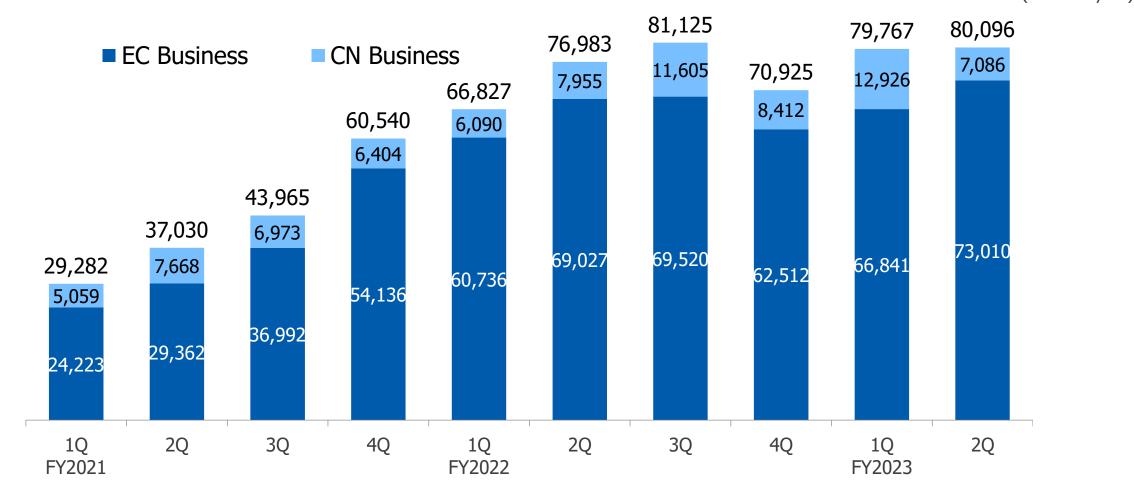

### Statement of Cash Flows

## Changes in Orders Received

- CN Business: In FY2023, there was an increase in long-term delivery orders, and large orders in 1Q
- EC Business: Proceeding toward normalization from 4Q of FY2022

# Forecast for the Fiscal Year Ending March 31, 2023

President & Representative Director Atsushi Tokushige

## Assumptions of Business Plan for the Second Half Orect Beyond of the Fiscal Year Ending March 31, 2023 (1/2)

|   | Forecast at FY Start (Full year)  | Revised Forecast (2 <sup>nd</sup> half)                  |
|---|---|--|
| Exchange rate<br>trend                      | •The yen will remain weak<br>(compared to previous FY)  | <ul> <li>Weaker yen than initial<br/>forecast</li> </ul> |
| Semiconductor<br>supply and<br>demand trend | <ul> <li>Tight supplies will continue<br/>in the first half, but turn<br/>hopeful in the second half</li> </ul>             | •Continued tight supply for main products                |
| Russia–Ukraine<br>issue                     | <ul> <li>It is difficult to predict the<br/>impact on our business<br/>(not incorporated into business<br/>plan)</li> </ul> | •No change   |
| COVID-19 trend                              | <ul> <li>Reduced impact on economic<br/>activity<br/>(minimal impact on business<br/>performance)</li> </ul>                | •No change   |

## Assumptions of Business Plan for the Second Half Omect Beyond of the Fiscal Year Ending March 31, 2023 (1/2)

CN Business

- A strong environment for IT-related investment
- Partial recovery of longer delivery times for IT equipment
- Strong demand primarily for industrial and automotive equipment
  - Tight supply and demand continues primarily for main products

## PB Business Strong demand primarily for industrial and medical equipment

• Increasing expenses for parts and materials

#### **Dividend policy**

- Dividend payout ratio: 40%
- Stable, continuous dividends

#### **Dividends / Dividend Payout Ratio**

- Dividend Payout Ratio (%)
  - Dividends Per Share (yen)

Promotion of Promising Businesses for Profitable Growth (1/4)

Strengthening service • business

- Security products and services
- AI services (AI evaluation and verification)
- Cloud services

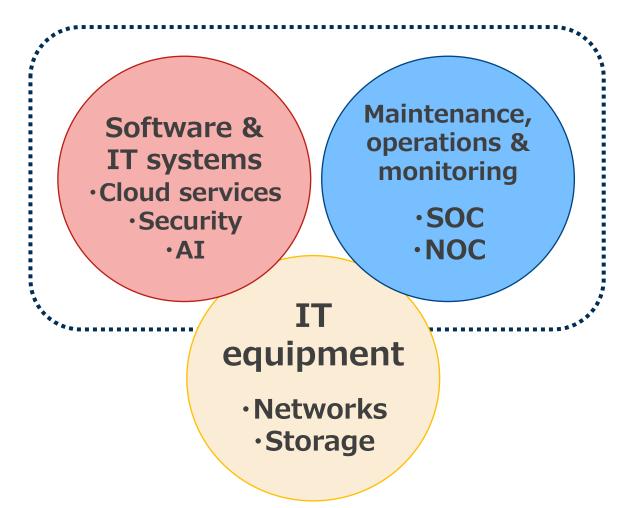

Strengthening manufacturer functions

- ODM (medical and specimen testing equipment)
- Overseas development of manufacturing systems
- Improved functionality of robot vision
- Design and Manufacturing services

## Promotion of Promising Businesses for Profitable Growth (2/4)

#### **Strengthening Service Businesses**

Notes: SOC (Security Operation Center), NOC (Network Operation Center) Copyright © Tokyo Electron Device LTD. All Rights Reserved.

#### **Promotion through Synergy**

- Differentiation and providing high added value
- Expansion of sales opportunities
- Accumulation of stock business

## Promotion of Promising Businesses for Profitable Growth (3/4)

#### Strengthening manufacturer functions

Integrated services from planning to development and manufacturing (ODM and private brand products)

Providing assembled products based on customer specifications (Design and Manufacturing Services)

Substrate (board)

Module

Business that offers products developed and manufactured independently under another company's brand

#### Technological Domain Needed

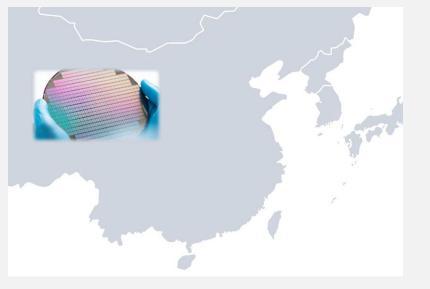

# Promotion of Promising Businesses for Profitable Growth (4/4)

#### Strengthening manufacturer functions

#### Deploying Manufacturing Systems Outside Japan

- Partnerships with local trading companies
- We plan to begin accepting orders from next fiscal year

#### Increasing the Functionality of Robot Vision

- Enhancing the practical level of picking
- Promoting the development of applications for industrial equipment

## Medium-Term Management Plan VISION 2025

### **BUSINESS ENVIRONMENT**

#### Society 5.0 to Arrive

Highly efficient smart society amid Slow Economic Growth

### OUR MISSION

#### **DRIVING DIGITAL TRANSFORMATION**

Providing products and services that can achieve digital transformation, thus contributing to the sustainable development of a highly efficient smart society

## **OUR VISION**

## To become a manufacturer with technology trading company functions

#### Evolving technology trading company functions

- Business model that will generate profits from data, service, and stock businesses
- Maintain and expand customer base that contributes toward growth of business as a manufacturer
- Build a base for stable income

## The kind of manufacturer we want to be

- Manufacturing system manufacturer
- Original design manufacturer (ODM)
- Design development division based on providing solutions to issue
- Highly efficient smart factories

## VISION 2025 Financial Model

#### **Pursuing Sustainable Growth with Profit and Revenue Growth (Profit Growth Outpacing Revenue Growth)**

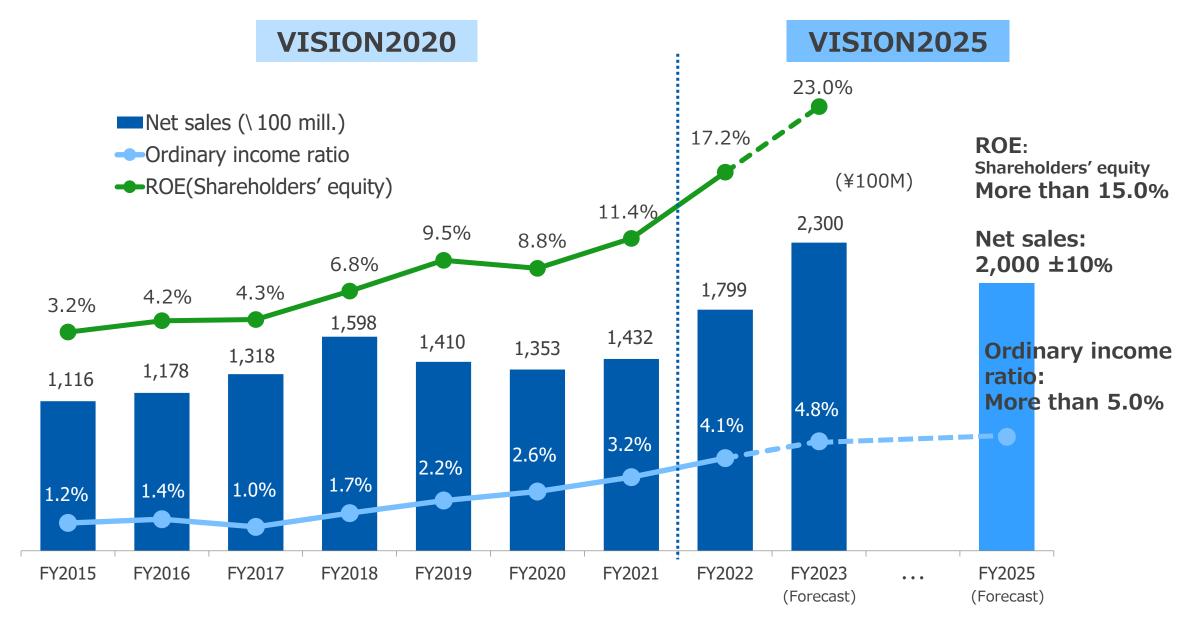

### Fiscal 2025
